

REQUIREMENTS FOR RECLAIMED WATER SERVICE

Definitions

Backflow: A reverse flow condition created by a difference in water pressures that causes water or other fluids to flow back into the distribution pipe of a potable water supply from any source other than an intended one.

Backflow Prevention Device: A backflow prevention device shall mean any effective device, method or construction used to prevent backflow into a potable water supply.

Cross Connection: Any physical arrangement of piping or fixtures whereby a potable water supply system is connected, either directly or indirectly, with an otherwise separate system which may contain potable or non-potable water or fluids of questionable safety, through which, or because of which, backflow or backsiphonage may occur into the potable water system.

Requirements

Before reclaimed water service can occur, an approved backflow prevention device must be installed on the customer's side of the potable meter. It is an environmental requirement that this device be raised a minimum of 12 inches from the ground.

Customer May use reclaimed water to:

- ✓ Irrigate lawns and outdoor landscaping
- ✓ Spray irrigate fruits and vegetables that will be peeled, skinned or thermally processed
- ✓ Drip irrigate fruits and vegetables that will not be peeled, skinned, cooked or thermally processed

Customer May Not use reclaimed water to:

- X Drink
- X Fill hot tubs, swimming or wading pools
- X Connect to a garden hose or outdoor spigot
- X Spray irrigate fruits and vegetable that will not be peeled, skinned, or thermally processed

The use of reclaimed water is governed by the Florida Department of Environmental Protection. For additional information concerning the use of reclaimed water see Rules 62-610.475 and 62-610.479, Florida Administrative Code.

Variability in customer consumption and weather patterns can affect the availability of reclaimed water. Therefore, we cannot guarantee that an unlimited supply of reclaimed water will be available at all times. Users agree to hold the Utility harmless from all damages, claims and judgments arising from use of reclaimed water or in the event reclaimed water becomes unavailable for any reason.

Failure to comply with any of the requirements described herein may result in denial of service or immediate disconnection of service in accordance with City of Deltona Resolution 2008-3.

☐ **I agree to abide by the requirements described herein.**

☐ **I decline backflow service at this time**
